***Department of Architecture, AMU Ranked #1 in the list of topmost Architecture Colleges for "Best Value for Money (Govt.)* as per India Today 2024 Ranking Survey*.**

Dept. data last updated on :21/07/2025

Department of Architecture is the youngest department of Zakir Hussain College of Engineering & Technology. It started in the year 1993-94 from internal resources and was established as a Department in 1998. UGC also adopted the department in 1998 i.e. IX plan (1997-2002). The course is approved by Council of Architecture & All India Council of Technical Education. The department offers a five year degree program leading to award of Bachelor of Architecture which has an intake of 24. Department has started its two year M.Arch. program from the session 2018-19 with an intake of 20.

The Thrust area of study are; Islamic Architecture, Energy Efficiency, Urban Design and Sustainable Architecture & Development. The department aims to develop into a great seat of learning for young Architects with high intellectual qualities to meet the challenges of the changing world scenario. To achieve this efforts are planned in a pragmatic manner taking stock of what exists and what is needed to be developed/ required in tune with time as per standards prescribed by COA in a phased manner. Architecture provides large scale self employment of B. Arch. Graduates as well as opportunities for large number of other skilled and unskilled employed persons there by helping the country eradicate unemployment and poverty. Being a professional course, students have all 3 options of working in private organizations, Govt. /Semi Govt. /PSUs
