**World Milk Day** मनाने की घोषणा किस संस्था द्वारा की गई थी?

A.WHO

✓ B.FAO

C.WHA

D.UNO

Rome

Ans ➡ FAO

# Question No: 3

**National Milk Day** कब मनाया जाता है?

A. 05 June

B. 26 Nov

C. 16 Aug

D. 12 Dec

~~वर्ग 12 डरियन~~

Ans  26 Nov

# Question No: 4

**National Dairy Development Board का मुख्यालय कहा स्थित है?**

A. फरीदाबाद

B. आनंद (५१)

C. नोएडा

D. उदयपुर

Ans → आनंद गुजरात

# Question No: 5

निम्नलिखित में से सत्य कथन कौन सा है।

- ✓ 1. Operation White Flood का संबंध भारत में दूध के उत्पादन को बढ़ाने से है।
  - ✓ 2. भारत में दुग्ध क्रांति के जनक डॉ. वर्गीज कुरियन को कहा जाता है?
- निम्न लिखित में से कौन सा कथन सही है।

A.1

B.2

✓ C.Both

D.None

Ans ➡ Both

# Maharashtra, Gujarat brace for 'severe cyclone' tomorrow

ESHA ROY &  
SANJANA BHALERAO  
NEW DELHI, MUMBAI, JUNE 1

BAREILY A fortnight after super cyclone Amphan, one of the strongest cyclones the country has seen in the last few decades, hit West Bengal, Odisha and Bangladesh, a cyclonic storm has been forming in the Arabian Sea over the 124 hours, which is predicted to intensify into a severe cyclone, 'Nisarga', and make landfall by Wednesday evening, according to the Met department.

Nisarga's impact is likely to be felt most strongly in Mumbai, Thane, Palghat, Raigad districts, with wind speed up to 105-115 km per hour gusting to 125 km per hour around the point of landfall, according to India Meteorological Department (IMD) authorities.

It is expected to land anywhere between Harihareshwar, south of Mumbai in Maharashtra's Raigad district, and Daman, located on the southern

# Rare scorpionfish found in Gulf of Mannar

Discovered alive in Indian waters for the first time

**SPECIAL CORRESPONDENT  
KOCHI**

Researchers at the Central Marine Fisheries Research Institute (CMFRI) have found a rare fish from Sethukarai coast in the Gulf of Mannar.

Camouflaged within the seagrass meadows, the band-tail scorpionfish (*Scorpaenopsis neglecta*), well-known for its stinging venomous spines and ability to change colour, was found during an exploratory survey of the seagrass ecosystem.

This was the first time that the particular species was found alive in Indian waters, said a press release.

The fish has the ability to change colour and blend

survey, this species was first sighted as a coral skeleton.

On first look, its appearance was totally confusing and we doubted if it was a fish or fossilised coral skeleton covered with bivalve shells.

## Colour changing

"It started changing when we disturbed it by touching a dead coral fragment. Within four seconds, the skin of the fish changed from white to mottled black colour," said R. Jeyabaskaran, senior scientist at CMFRI, who led the team of researchers.

The fish is called 'scorpionfish' because its spines contain neurotoxic venom.

## Neurotoxic

"When the spines pierce an individual, the venom gets injected immediately and it can be extremely painful," Mr. Jeyabaskaran said, adding that eating the fish would lead to death.

The specimen has been deposited in the National Marine Biodiversity Museum of the CMFRI. The research work was published in the latest issue of the journal *Current Science*.

Scorpionfish  
Charmu mussel  
हिम दाल

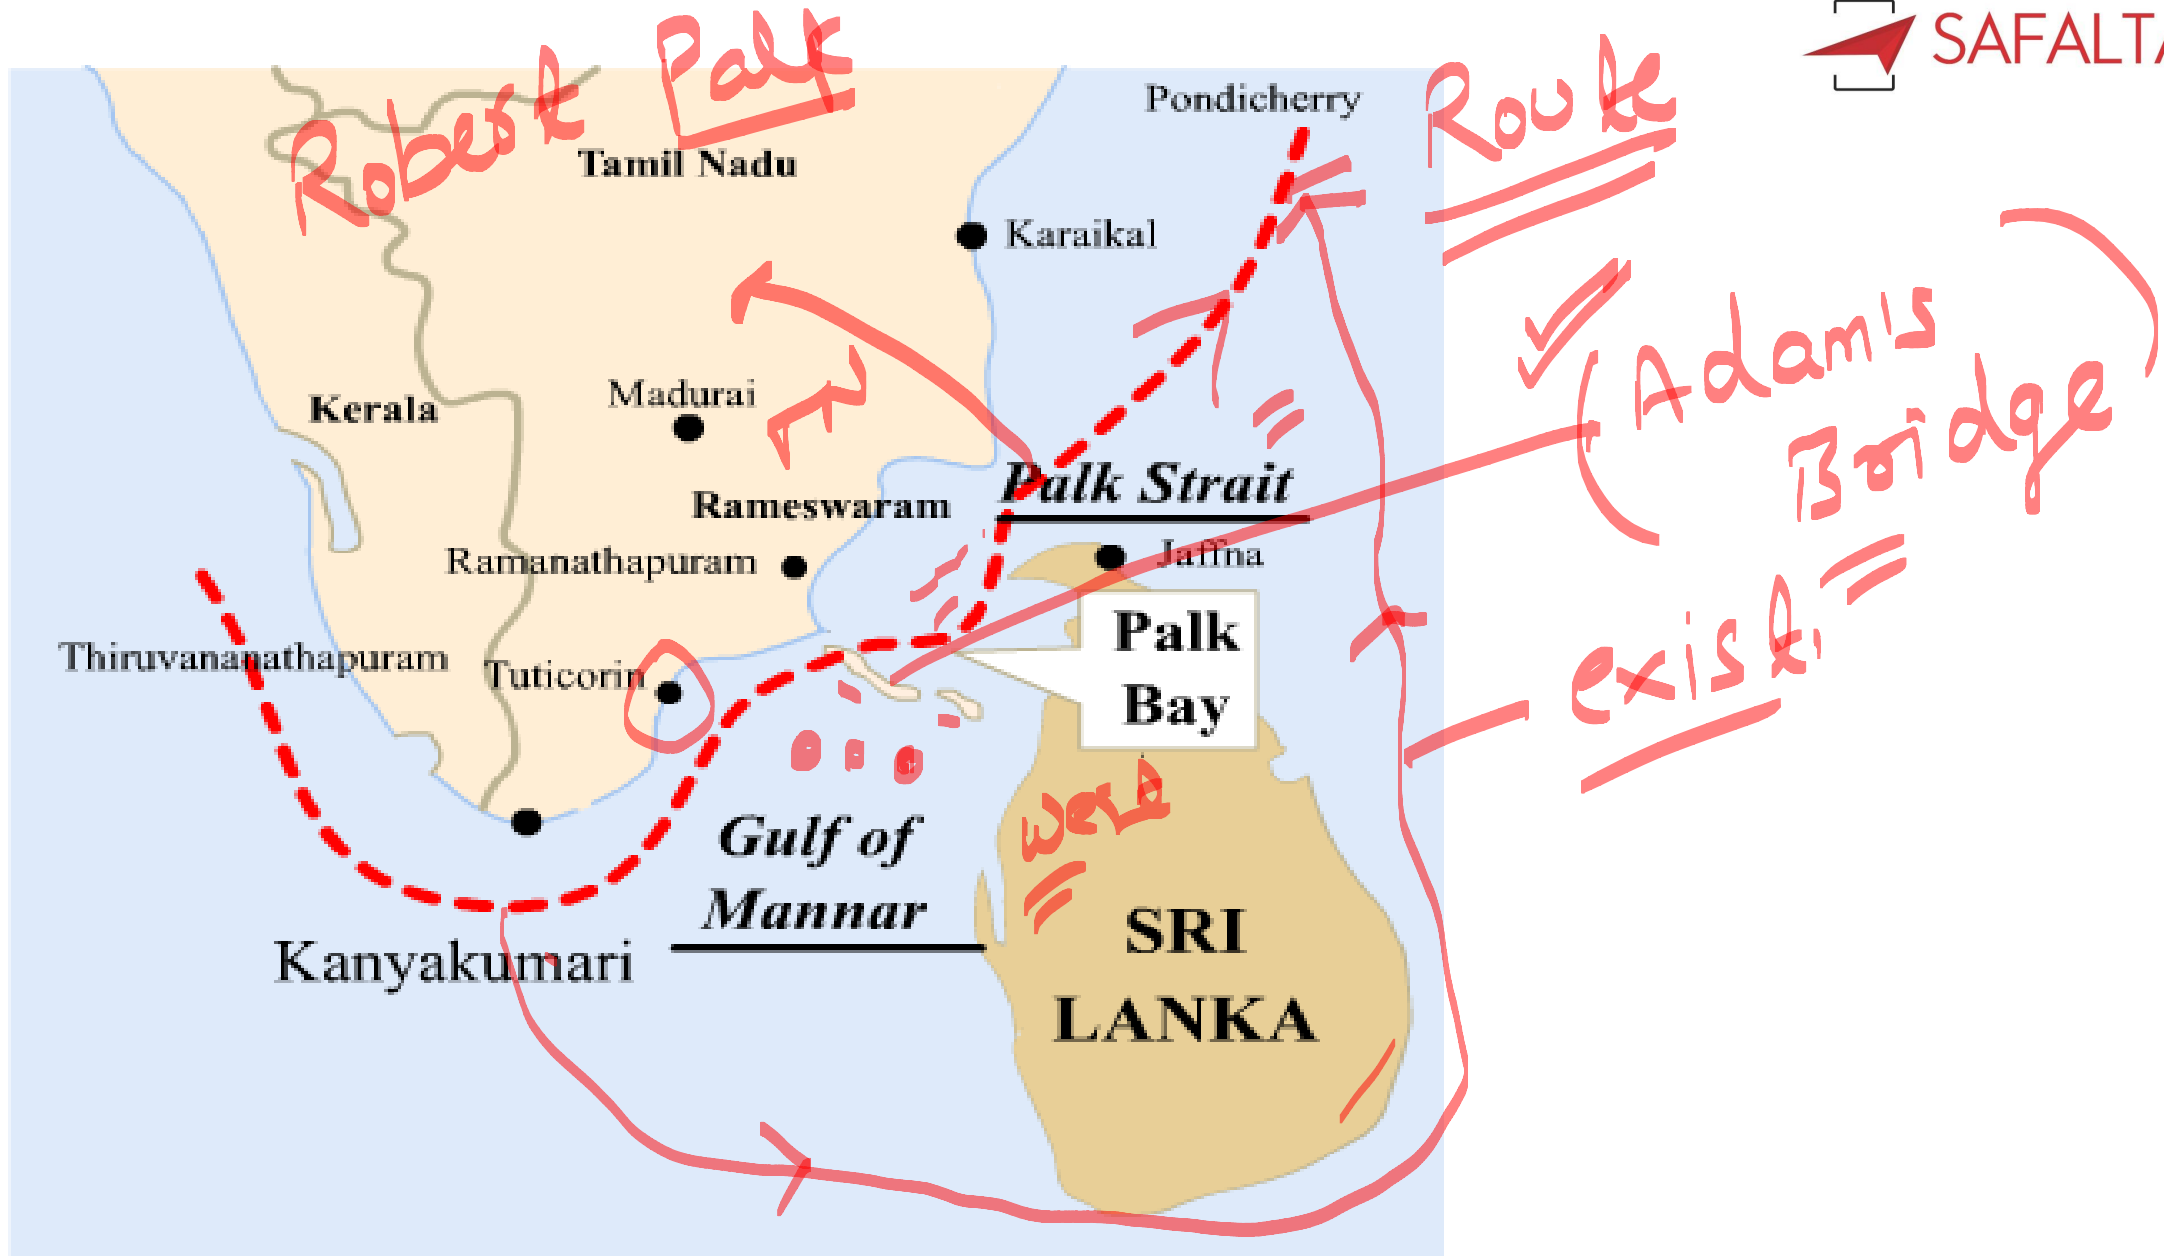

- Recently, researchers at the **Central Marine Fisheries Research Institute (CMFRI)** have found a rare **Scorpionfish (Scorpaenopsis neglecta)** from **Sethukarai coast** in the **Gulf of Mannar**.
- This for the first time the particular species is discovered alive in Indian waters.

- It is commonly found in the **Indo-West Pacific region of the world.**
- The fish is called 'scorpionfish' because its spines contain **neurotoxin.**
- Generally snakes i.e. **King Cobra** and marine snakes have these types of venom.

## Gulf of Mannar ✓✓

- It is an inlet of the Indian Ocean, between southeastern India and western Sri Lanka.
- It is bounded to the northeast by Rameswaram (island), Adam's (Rama's) Bridge (a chain of shoals), and Mannar Island.

# The Central Marine Fisheries Research Institute

- It was established by the Government of India in 1947 under the Ministry of Agriculture and Farmers Welfare and later it joined the Indian Council of Agricultural Research (ICAR) family in 1967.
- It is a leading tropical marine fisheries research institute in the world, headquartered in Kochi, Kerala.

## Al-Aqsa compound reopens

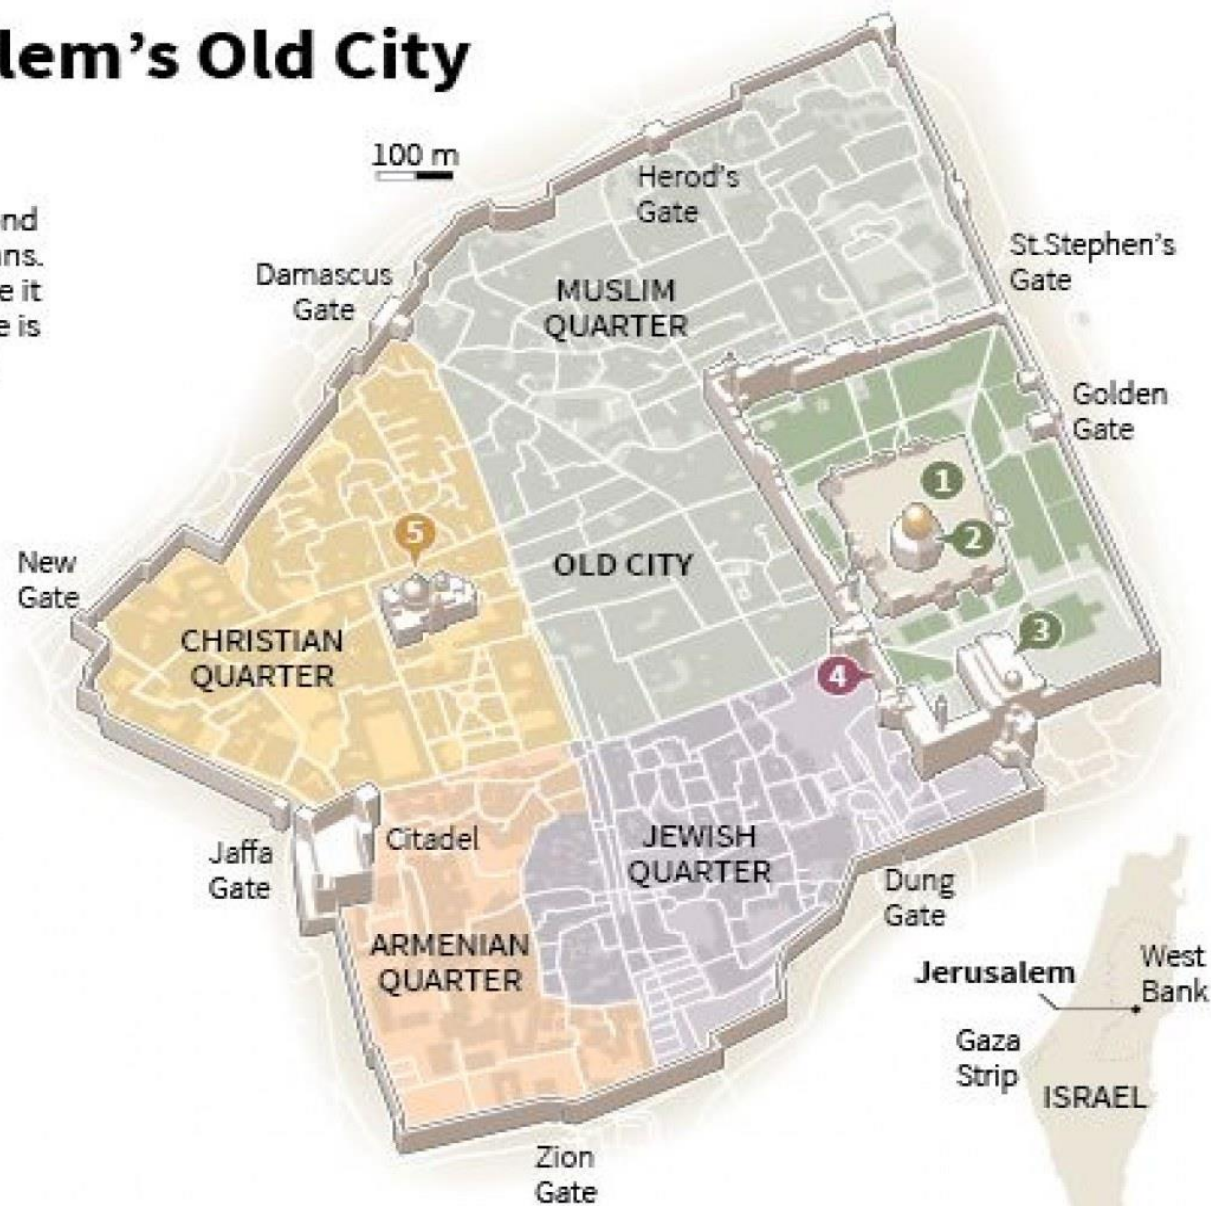

REUTERS  
JERUSALEM

Jerusalem's Al-Aqsa mosque compound reopened to Muslim worshippers and visitors on Sunday after a two-and-a-half month COVID-19 closure, but authorities imposed some precautions. The resumption of prayers at Islam's third-holiest site capped a sombre period for Jerusalem's Muslims, who this year marked the holy fasting month of Ramzan and the Id holiday without their usual daily visits to Al-Aqsa and the adjoining Dome of the Rock. The Council of Islamic Waqf cited the slowed local spread of COVID-19 in reopening the compound's iconic shrines, which shut on March 15.

East Jerusalem

# Holy sites in Jerusalem's Old City

- 1 Temple Mount/Noble Sanctuary**  
Jews call the 35-acre compound Temple Mount because it was the site of their Second Temple, which was destroyed by the Romans. Muslims call it the Noble Sanctuary and see it as the third most Holy site in Islam. The site is controlled by Muslims but some Jews and Israelis want the right to pray there.
- 2 Dome of the Rock**  
Islamic tradition says that the Prophet Mohammad ascended to heaven on a winged horse from this spot.
- 3 Al-Aqsa Mosque**  
The third holiest in Islam after Mecca and Medina in Saudi Arabia.
- 4 Western Wall**  
The last remnant of the Second Temple compound and one of the holiest sites in Judaism.
- 5 Church of the Holy Sepulcher**  
Christians believe the church marks the sites where Jesus Christ was crucified and buried.

# Bengal's grand old buildings bear the brunt of Amphan

Centuries-old St. Andrew's Church, Serampore College, and Dupleix Palace among those damaged

SUVOJIT BAGCHI  
SHIV SARKY SINGH  
KOLKATA

When super cyclone Amphan swept through south Bengal last week, it not only flattened thousands of houses, but also severely damaged some of its centuries-old heritage structures.

Palaces, mosques, temples or offices depicting Britain's footprint on the Bengal frontier to architectural traditions of European colonialism, gardens from the time of 19th century resurgence in Bengal's cultural landscape to the recently renovated British-era buildings all bore the brunt.

Chandra Mahanta, senior

Damaged weathercock atop the St. Andrew's Church.

• RAJENDU BHATT

For Antara Mukherjee, a teacher and heritage enthusiast, the experience is "traumatic".

Many of the old buildings, gardens, mosques or colleges in Howrah's district were

week of the cyclone.

Serampore College, founded 200 years back by William Carey, a cultural anthropologist who played a significant role in the spread of western education, is one of the damaged buildings.

The mahogany windows of the stately main building, dropped from the first floor and broke into pieces. "The garden in front of a heritage building in the college is ruined," Mr. Mukherjee said.

The Dupleix Palace at Chandannagar, built by French Governor-General Joseph Francois Dupleix, also suffered severe damage.

Another damage listed by the INPACT members is that

said. The main structure of an early medieval brick temple, Jatar Deul, dating back to the 11th and 12th century CE (Current Era) in Namkhana of South 24 Parganas "has not suffered major damage but the compound and boundary walls have been destroyed," Mr. Majumdar said.

## Narrow escape

In Kolkata, the newly restored Metralle Hall has suffered some structural damage, while the Currency Building in city's central business area narrowly escaped when a tree fell a few metres away from the main structure.

The tower of St. Andrew's

Hooghly Imbarra.

Awadeh, the upset gatekeeper of the church, who has been working in the premises for nearly 50 years. "It was the main attraction and prestige of the church," he said.
