
NEET Physics Syllabus

Class 11th Syllabus	Class 12th Syllabus
Physical world and measurement (5 days)	Electro statistics (10 days)
Kinematics (10 days)	Current Electricity (10 days)
Laws of Motion (10 days)	Magnetic effects of Current and Magnetism (10 days)
Work, Energy, and Power (10 days)	Electromagnetic induction and alternating currents (10 days)
Motion of systems of particles and rigid body (10 days)	Electromagnetic waves (10 days)
Gravitation (10 days)	Optics (5 days)
Properties of Bulk Matter (10 days)	Dual Nature of Matter and Radiation (5 days)
Thermodynamics (10 days)	Atoms and Nuclei (10 days)
Behavior of Perfect Gas and Kinetic theory (10 days)	Electronic Devices (5 days)
Oscillations and wave (10 days)	

NEET Chemistry Syllabus

Class 11th Syllabus	Class 12th Syllabus
Some basic concepts of Chemistry (10 days)	Solid state (10 days)
Structure of atom (10 days)	Solutions (10 days)
Classification of Elements and Periodicity in Properties (10 days)	Electrochemistry (10 days)
Chemical Bonding and Molecular structure (10 days)	Chemical Kinetics (10 days)
States of Matter: Gases and liquids (10 days)	Surface Chemistry (10 days)
Thermodynamics (10 days)	General principles and Processes of Isolation of Elements (10 days)
Equilibrium (10 days)	P Block elements (10 days)
Redox reactions (10 days)	D and F block elements (10 days)
Hydrogen (10 days)	Coordination compounds (10 days)
s-Block elements (Alkali and Alkaline earth metals) (10 days)	Haloalkanes and Haloarenes (10 days)
Some p-Block elements (10 days)	Alcohols, Phenols and Ethers (10 days)
Organic Chemistry – Some basic principles and techniques (10 days)	Aldehydes, Ketones and Carboxylic Acids (10 days)

Hydrocarbons (10 days)	Organic compounds containing Nitrogen (10 days)
Environmental chemistry (10 days)	Biomolecules, Polymers and Chemistry in everyday life (10 days)

NEET Biology Syllabus (100 days)

Class 11th Syllabus	Class 12th Syllabus
Diversity in the Living World (10 days)	Reproduction (10 days)
Structural Organisation – Plants and Animals (10 days)	Genetics and Evolution (10 days)
Cell Structure and Function (10 days)	Biology and Human welfare (10 days)
Plant Physiology (10 days)	Biotechnology and its applications (10 days)
Human physiology (10 days)	Ecology and environment (10 days)
