

## 2. USE AND ABUSES OF MOBILE PHONE

## STARTERS

- ☞ We all carry a mobile phone or a smartphone with us. It helps us to communicate with our relatives or friends who are not near physically. The invention of the mobile phone is a great success of science. Though the main uses of the mobile phone are to make calls or to messages, it can also be used in multipurpose tasks. In addition to or messages, the mobile phone can also be used as a calculator, camera voice recording device, audio and video player etc. one can browse the internet on his/her mobile phone.
- ☞ Mobile Phones are one of the most important discoveries of this century. They have made communicating people simpler across the globe. They have brought interactions among business personals to air. Nevertheless, they have evolved and brought the entire information in the very universe to the tip of human fingers. They have made dramatic changes to the marketing world. They have brought efficiency to the world education.
- ☞ The advent of mobile phones has squeezed this large world and brought it into the palm of human being. However mobile phones have always been instigating debates among the people about their merits and demerits. Apart from the instant access they give us, mobile phones have multipurpose uses ranging from business work, means for entertainment and ensuring security. On the other hand, they have some disadvantages like initiating violation of privacy, unnecessary wastage of money, talking on mobile phones while driving and emission of radiation from the handsets which is allegedly harmful for health,

## CONCLUSIONS

- ☞ Every coin has two aspects. Thus, mobile phones or cell phones also have two different sides. It depends on how we use it. No doubt mobile phone has some negative aspects, or we can simply say that there are a un disadvantages of mobile phones. But we can't deny that Mobile phone has made a remarkable change in the development of our civilization.
- ☞ Mobile phones are one of the most used gadgets in today's world. Everyone from a child to an adult uses mobile phones these days. They are indeed very useful and help us in so many ways. Mobile phones indeed make our| lives easy and convenient but at what cost? They are a blessing if we use them correctly. As we use them for more than a fixed time, they become harmful for us.
- ☞ A mobile phone can both be positive and negative; depending on how a user uses it. As mobiles have become a part of our lives so we should use them in a proper way, carefully for our better hassle-free lives rather using them improperly and making them a virus in our lives.
- ☞ If the mobile phone is used properly then it is no less than a boon but if it is used excessively, then it is home to diseases and separates you from the world. It is in the same way that if we use something in limit then it is useful to us and if we start to use it more then it becomes harmful for us, this thing applies to everything.

## QUOTES AND SLOGANS

- ☞ "Smartphone is definitely smarter than us to be able to keep us addicted to it."
- ☞ "We are living in a generation where people 'in love' are free to touch each other's private parts but are not allowed to touch each other's phones because they are private."

→ Robert Mugabe –

- ☞ Home is where the heart is, but today, the phone is where the heart is!

## SAMPLE ESSAY : USES AND ABUSES OF MOBILE PHONES

Word limit: 270

There is a saying "Technology is a useful servant but a dangerous, master." Mobile phones are certainly materializing this saying. Mobile phone are the fastest medium of communication. They have become a life partner of all individuals. There is hardly any who do not use mobile phone. It is a magical invention of modern period.

There are several good uses of a mobile phone. Formerly, it only functioned as a portable mean of communication. But now it has developed into miracle. there are several useful apps which help us a lot. Informative, education apps help students learn being at home. It offers E-learning, also internet access in mobile phones is very useful, one can find all sorts of material and stuff for reading. It is beneficial at the time of emergency.

As it is believed that excess of everything is bad. The blessing has become a curse. Students waste their precious time playing online games. Children start watching inappropriate content using mobile phone which destroys their moral and ethical standing in the society. It affects eyesight and leaves negative impacts on the psychology of a person. It is a source of depression, stress, anxiety and psychological disorders. Also, it is used as a sophisticated weapon by terrorists and criminals.

As every coin has two aspects, mobile phones also have two different sides. It depends on how we use it. No doubt mobile phone has some negative aspects, or we can simply say that there are a few disadvantages of mobile phone.

But we can't deny that the Mobile phone has made a remarkable change in the development of our civilization.
